

~ *Special Edition*

February 2017~

The Ozark-Dale County Humane Society ended the year on a very encouraging note. Several hard to place pets, who had been at the shelter far too long, were adopted. There is always hope that a match will be found for all. While they are waiting, the shelter is a safe place for them to stay. They are cared for and loved. We receive NO tax

dollars and NO money from the Humane Society of the US.

Being privately funded allows the shelter to remain **no-kill**, which means there are no time restrictions on how long a pet can remain with us. **Your generosity makes this possible.**

In addition to those listed, we would like to thank those who bring and/or send food and supplies to the shelter! We thank all those who drop money into our donation jars. **You are the Ozark-Dale County Humane Society!**

Your support makes it possible to continue the work of finding these pets the homes they deserve!

(Due to many changes in personnel and software, it is possible that some donor names were not listed. If you do not see your name, please let us know. We will include it in a future newsletter--Note: *In honor of* and *In memory of* listings appear in our regular quarterly newsletter.) Carly-shown left, is available for adoption.
